PRODUCT DESCRIPTION

Designer: Sofie Lefevre

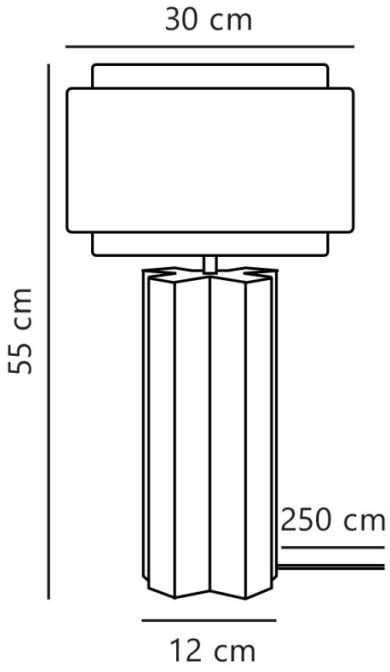

Design For The People Takai Table Lamp

Designed by Sofie Lefevre, the Design For The People Takai Table Lamp draws inspiration from architectural brutalism, focusing on materials, textures and tactility. Takai harnesses a geometric marble base and a linen textile shade, with an earthy colour palette. The light source of this lamp is concealed by the rounded shade and diffused through its sides, resulting in a warm ambient glow that can be utilised in a range of interiors.

The Design For The People Takai Table Lamp is a stunning statement piece that invites you to look at it from different angles to truly take in its form. Adding a soft and warm touch to your space, Takai can intimately illuminate bedrooms, dining spaces, hallways and living rooms. It is also a sophisticated addition to hotels, restaurants and bars. The fabric cable features an in-line on/off switch that allows you to easily control the lighting output.
