PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Press Frosted LED Table Lamp

Available to pre-order for official release in September 2025.

The Press Frosted Table Lamp is a new addition to Tom Dixon's best-selling [Press Collection](#). Featuring a grooved and textured diffuser, the Press Frosted is named after the process in which it is made. Molten glass is poured into iron moulds and pressed to form the lamp's distinctive shape. Each table lamp includes three metal dome caps in black, silver, and gold, which are interchangeable to suit the user's preference.

The frosted glass frame gently diffuses light from the LED housed within, producing glare-free ambient illumination. The thick, frosted glass with smooth ridges refracts light to create a dispersed illumination and a mesmerising play of light and shadows. An in-line dimmer on the cable allows the user to adjust the brightness of the light to create the ideal ambience. The Press Frosted Table Lamp is well-suited to adding ambient lighting to a bedside, living room, or office space.
