PRODUCT DESCRIPTION

Designer: Sabine Marcelis

Established and Sons Aura Suspension Light

The Aura Suspension lights were designed by Sabine Marcelis. Each light is made from a bio-epoxy resin, formulated using by-products from the agricultural industry. A cylindrical bar, measuring over a metre in length, houses a replaceable LED tube. This custom-engineered lightbulb enhances the design's warm aesthetic. While not completely visible, some of the electrical components can be seen, giving the viewer a hint of what is powering the light.

The Aura Suspension Light is available in two vibrant finishes: Rose and Apricot. When illuminated, the LED lights up the resin bar, causing a captivating glowing effect. This warm hue of light adds a welcoming ambience and cosy atmosphere to the room it hangs in. The suspended cylindrical bar can be displayed alone or in a group and is well-suited above a dining room table. In commercial spaces, the Aura Suspension can be installed in an office, running the length of a long desk or table.

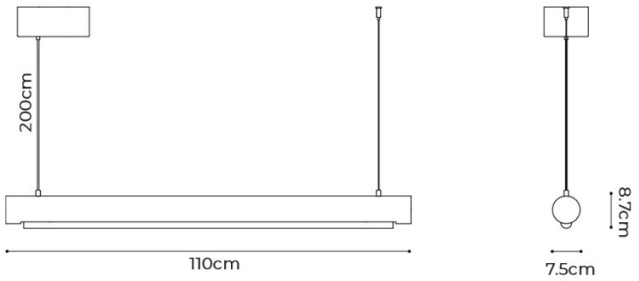

PRODUCT SPECIFICATION

Light Source: 13.25W, 3000K, 1200 Lumens

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Length: 110cm
Depth: 7.5cm
Cable Length: 200cm
