PRODUCT DESCRIPTION

Designer: Nao Tamura

Established and Sons Tiki LED Portable Lamp

The Tiki Portable Lamp was designed by Japanese designer Nao Tamura. The bird-like lamp's characterful personality was designed to be displayed in clusters or ‘flocks’. Each shade is robotically carved from milky-white polycarbonate to create its delicate form. The acrylic shade is mounted on top of a metal-formed base, creating the appearance of being delicately perched. The Tiki is available in eight bold finishes that complement the lamp's playful expression.

A translucent diffuser on the underside of the bird-shaped body produces a soft glow that surrounds the lamp when lit. This creates a stark contrast against the lamp’s bold, polished finish. An integrated dimmer allows the user to adjust the intensity of brightness to suit any environment. This dimming function is controlled by rotating the bird-shaped body, adding a touch of interactivity to its functionality. When fully charged, the Tiki Lamp provides up to 10 hours of light, depending on the brightness setting. Chargeable via an included magnetic USB Type-C Charger. The Tiki Portable Lamp can be displayed anywhere in the home that requires ambient lighting, such as a bedside table, coffee table, or reading nook. Its ornamental structure blends form and functionality, perfect for illuminating shelves while adding a decorative element to the space.

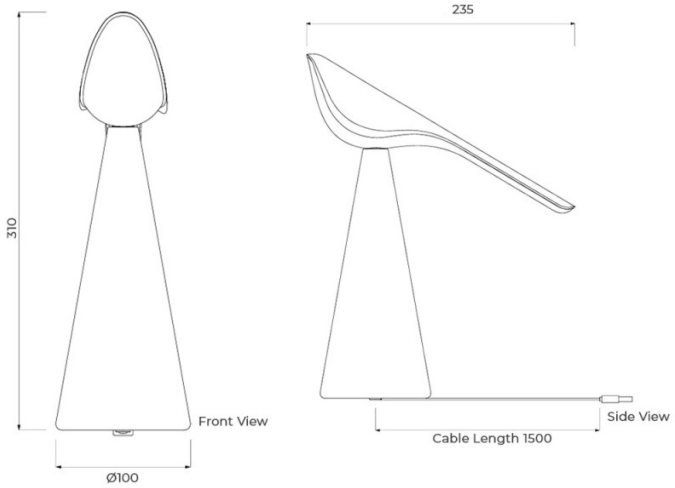

PRODUCT SPECIFICATION

Light Source: 3W, 2700K, 200 Lumens

IP Code: 20

Dimming: Integrated dimmer on the product.

Dimensions: Height: 31cm
Width: 10cm
Depth: 23.5cm
Charging Cable Length: 150cm
