PRODUCT DESCRIPTION

Designer: Ferm Living x Utzon

Ferm Living Luver Portable Lamp

The Luver Portable was created through the Ferm Living x Utzon collaboration. This collaboration is made up of the talented in-house design team at Ferm Living and the Utzon Centre, who celebrate the works of Danish architect Jørn Utzon. Utzon had a profound sensitivity to organic forms and drew from the natural world for his designs, which can be seen in the Luver Portable. Three tapered shades are stacked to create the lamp's structure, while a steam-bent handle showcases the precise craftsmanship involved in the design.

When lit, the stacked panels diffuse light downwards, bathing the lamp in rings of warm lighting. This effect adds a decorative touch to the Luver and creates a cosy and welcoming ambience. An integrated four-step dimmer allows the user to adjust brightness intensity to suit any mood. When fully charged, the Luver Portable offers between 8-80 hours of light, depending on the brightness output. Chargeable via the included Pogo-Pin charging cable with a USB-C type on the charger end (adapter not included). The portability of the Luver makes this lamp an ideal lighting solution to follow you wherever you require ambient lighting, such as a bedside table, reading nook, or outdoor table.

PRODUCT SPECIFICATION

Light Source: 2W, 2200K, 65 Lumens

IP Code: 44

Dimming: Integrated dimmer on the product.

Dimensions: Ø14cm
Height: 20.6cm
Charging cable length: 100cm
