PRODUCT DESCRIPTION

Designer: Ferm Living

Ferm Living Frill Portable Lamp

The Frill Portable Lamp was created by Ferm Living's in-house team of designers. The refined design combines functionality with ornamental, tactile elements. The base is made from powder-coated iron for a durable yet luxurious finish. On top of the base sits an HDPE shade with a fluted surface that adds depth to the design. The Frill Portable was designed with durability in mind, and with an IP rating of 44, it's a perfect lighting solution for kids' rooms and outdoor areas.

When lit, the Frill's integrated LED produces a gentle ambient glow. The shade's fluted surface creates a play of light and shadow, adding to the decorative element of the design. The four-step touch dimmer allows the user to adjust the brightness of the light to suit any environment. Between 8-80 hours of light is produced, depending on the brightness selected. The Frill Portable lamp is chargeable via the included magnetic Pogo-Pin charging cable, with type USB-C on the charger end. Please note that an adapter is not included. Available in two muted finishes, Rose and Cashmere, allowing the Frill Lamp to blend seamlessly into a range of environments and decors.

PRODUCT SPECIFICATION

Light Source: 1W, 2200K, 40 Lumens.

IP Code: 44

Dimming: Integrated dimmer on the product.

Dimensions: Ø15.4cm
Height: 22cm
Charging cable length: 100cm
