PRODUCT DESCRIPTION

Designer: Ferm Living

Ferm Living Neba Wall Light

The Neba Wall Light was designed by Ferm Living's in-house team of designers. The lamp is constructed using a circular metal sheet that features an offset, moon-shaped form that adds an elegant decorative element to the design. When lit, the moon-shaped form creates a clever play of light and shadow, giving the illusion of a waning gibbous moon. The cosy, ambient light produced, paired with the playful moon-shaped design makes the Neba Wall a perfect lighting solution for children's bedrooms.

The Neba Wall Light is available in cashmere, tea green and rose finishes – its muted tones blending seamlessly into a wide range of environments and decors. The metal frame is powder-coated for a luxurious yet durable finish. Attached to the cable is a continuous dimming switch, allowing users to customise their lighting to create a serene and comforting environment. Please note that as this wall light includes a cable and plug, it needs to be installed by a socket.

PRODUCT SPECIFICATION

Light Source:	10W, 2500K, 350 Lumens
IP Code:	20
Dimming:	In-line dimmer included on cable.
Dimensions:	Ø45.5cm Depth: 2.8cm Cable Length: 200cm
