PRODUCT DESCRIPTION

Designer: Ferm Living x Utzon

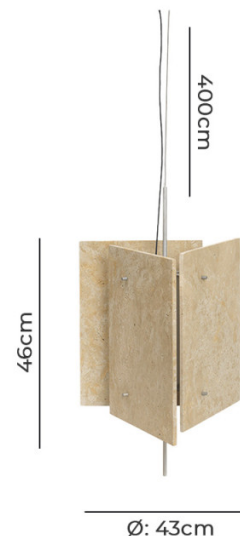

Ferm Living Oeste Pendant

The Oeste Pendant is a collaboration between Ferm Living's in-house designers and the Utzon Centre, created to celebrate the legacy of Danish architect Jørn Utzon and inspired by his Mallorca home, where architecture meets landscape. The shade is formed from three vertical panels that enclose the light source, offered in honed travertine or clear glass.

When lit, light slips through the gaps between the panels to create a gentle play of light and shadow. Travertine lends a warm, diffuse glow with natural texture, while clear glass gives a brighter, crisper character with subtle reflections. The Oeste Pendant arrives flat-packed for straightforward assembly. Hang above a dining table, kitchen island or in a living space to bring a welcoming ambience and focused illumination. Display with the [Oeste Table Lamp](#) to create a sense of balance in any space.
