PRODUCT DESCRIPTION

Designer: Simon Legald

Normann Copenhagen Phantom LED Floor Lamp

Available for pre-order. Official release date September 2025

Echoing the grandeur of chandeliers while standing tall like a sculptural column, the Phantom LED Floor Lamp brings a striking silhouette to the floor. Constructed from a steel skeleton coated in fine layers of translucent spray resin, it softly diffuses the integrated LED light within, creating a warm and atmospheric glow. The lamp's ethereal form is achieved through a meticulous layering technique, resulting in a textured veil that wraps around the structure like a cocoon.

Designed by Simon Legald for Normann Copenhagen, the Phantom LED Floor Lamp offers a soft yet commanding presence in both residential and commercial interiors. Its integrated LED pipe runs vertically through the lamp for even light distribution, while a discreet foot dimmer allows stepless adjustment to the ambience. Whether used in a reading nook, lounge corner, or as a sculptural statement in an open space, Phantom adds both drama and tranquillity through its iconic form and layered luminosity.

PRODUCT SPECIFICATION
