PRODUCT DESCRIPTION

Designer: Simon Legald

Normann Copenhagen Phantom LED Table Lamp

Available for pre-order. Official release date September 2025

Compact but visually impactful, the Phantom LED Table Lamp translates the iconic veiled form of the Phantom collection into a versatile desktop or bedside format. Designed by Simon Legald, it features the same steel structure wrapped in fine layers of translucent spray resin, casting a soft, diffuse glow that radiates warmth. The layered construction adds texture and depth to the shade, with a floating quality that appears sculptural yet lightweight.

An integrated LED light source runs through the centre of the lamp, controlled via an in-line dimmer for stepless brightness adjustment. The result is a warm, ambient illumination ideal for creating a calm atmosphere in both residential and commercial interiors. Whether used on a nightstand, sideboard, or shelf, the Phantom LED Table Lamp brings a quietly dramatic presence to its surroundings, blending softness and structure in one striking form.
