## PRODUCT DESCRIPTION

**Designer:** Joan Gaspar

### Marset Ringo LED Ceiling Light Fixed Stem

The Marset Ringo LED Ceiling Fixed Stem light brings structure and boldness to the Ringo collection, offering a clean and rigid drop that enhances its architectural presence. Designed by Joan Gaspar, the Ringo Fixed Stem features the same translucent polycarbonate shade as its pendant and flush-mounted counterparts, with a distinctive materiality that recalls glass yet remains light and optical. It emits a generous, ambient glow through an opal methacrylate diffuser, distributing light evenly in any space.

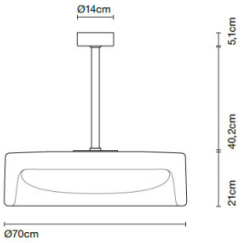

This version includes a fixed stem that can be extended in 40cm or 60cm increments (up to three combined), making it highly adaptable for ceiling heights of all kinds. Available in two sizes, 70cm and 90cm diameter, and four soft-toned finishes, green, rosé, smoke, and dark smoke, the Ringo Fixed Stem blends impact with elegance. Integrated LED technology ensures powerful yet efficient illumination, while dimming functionality provides flexibility for both residential and contract projects. Whether used individually or in multiples, Ringo's material-forward design brings atmosphere, function, and a quietly dramatic presence.

**Please note, this product is also available in 3000K & 4000K and Dali dimming variants. Contact us for pricing and information.**
