PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Ringo LED Pendant Light

The Marset Ringo LED Pendant Light offers a bold, architectural expression ideal for contemporary spaces with volume. Designed by Joan Gaspar, this pendant version highlights Ringo's signature material-forward approach. Its translucent polycarbonate shade, reminiscent of cast glass, is both sculptural and lightweight, allowing the light to pass through gently while maintaining a solid visual presence. Combined with an opal methacrylate diffuser, it creates a warm ambient glow that enhances the tone and texture of interiors.

Suspended by a black electrical cord, Ringo is offered in two generous sizes, 70cm and 90cm diameter, and in four muted, atmospheric finishes: green, rosé, smoke and dark smoke. With powerful integrated LED modules and dimming functionality, it suits both contract and residential applications where a dramatic yet refined light source is required. Ringo works well as a solo centrepiece or in grouped compositions above tables, stairwells, or lobbies.

Please note, this product is also available in 3000K & 4000K and Dali dimming variants. [Contact us](#) for pricing and information.
