Bert Frank Vima Wall Light

The Bert Frank Vima Wall Light brings sculptural elegance to the vertical plane, combining classic materiality with modern restraint. Crafted from a softly arched slab of Spanish alabaster, the wall light is accented with solid brass detailing and a centre opal diffuser that emits a warm, ambient glow. The result is a visually striking form that feels embedded into the architecture itself, subtly enhancing the surrounding space.

Machined in Birmingham and hand-assembled using time-honoured techniques, the Vima Wall Light is a study in balance, between smooth, curved alabaster and the precision of its brass framing. The thin stonework is finely polished to reveal a lustrous, semi-translucent finish that glows gently when lit, creating natural tonal variations and texture.

Perfect for framing mirrors, illuminating corridors or offering subtle bedside lighting, the Vima Wall Light merges decorative drama with understated refinement. Its Art Deco-inspired geometry is softened by the natural materials, resulting in a piece that feels timeless and quietly luxurious.

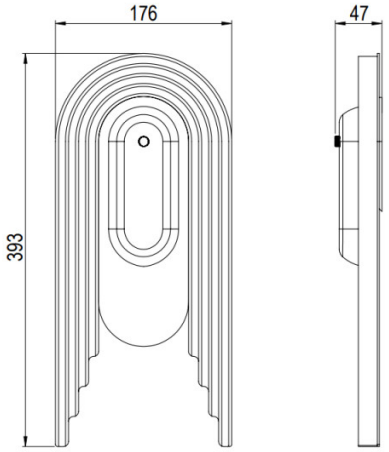

PRODUCT SPECIFICATION

Light Source: 1 × Max 4W G9 LED (Included)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Height: 39.3cm
Width: 17.6cm
Depth: 4.7cm
