PRODUCT DESCRIPTION

Designer: Ludovica & Roberto Palomba

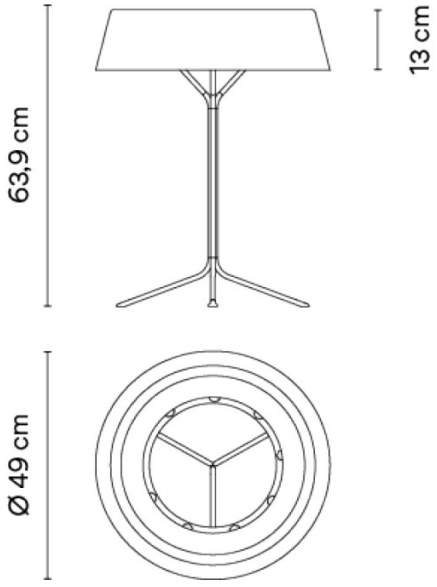

Vibia Lily LED Table Lamp

Elegant yet emotionally grounded, the Vibia Lily LED Table Lamp casts soft, voluminous light through its curved opal triplex glass shade. The sculptural form is gently offset by a slender steel tube, creating a timeless visual balance that complements both modern and classic interiors. Designed by Ludovica + Roberto Palomba, Lily offers a poetic lighting presence that feels both intimate and architectural, diffusing light evenly in every direction to support calm, ambient settings.

Ideal for bedside tables, living spaces, or elegant hospitality interiors, the Lily Table Lamp blends aesthetics with functionality. A built-in LED light source delivers 2170 lumens of warm 2700K light, subtly diffused to avoid glare while illuminating surfaces with clarity and warmth. Available in soft Beige or deep Black, Lily's tactile finishes and plug-in format make it a flexible and beautiful choice for residential and professional spaces alike.
