PRODUCT DESCRIPTION

Designer: Astro Design Team

Astro Minima Pro LED Downlight

The Astro Downlight Pro collection is a modular product that allows for design flexibility, creating a range of product options that suit your particular project needs. The range allows you to configure different optics, dimming, light temperatures and colour rendering depending on the desired functionality and aesthetic. Designed to bring architectural lighting to residential spaces or for projects that require tailored illumination that is easy to install, the PRO range is a customisable and project-friendly lighting solution.

The Minima is available as Square Adjustable, Square Fixed IP65, Round Adjustable, Round 25 IP65 and Round Fixed IP65 versions, as well as with configurable light optics. Its minimal 3mm trim and clean profile make it a discreet option for a range of project types.

To ensure you pick the right product for your space, please get in touch to discuss with us which downlight is best for your needs.

To view the whole range, please use the [Astro Configurator](#).
