PRODUCT DESCRIPTION

Designer: Will Earl

J. Adams & Co Spot Single Ceiling Light

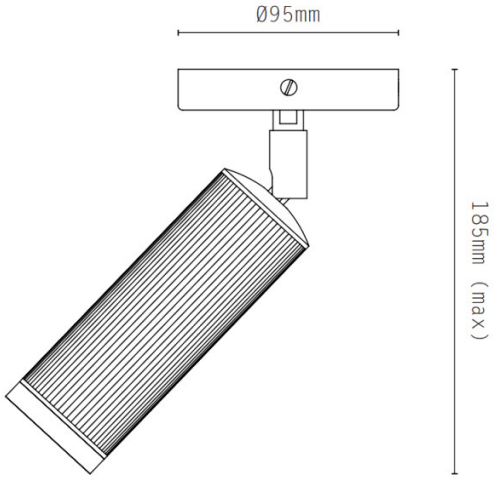

The Spot Single Ceiling Light by J. Adams & Co is a compact, surface-mounted spotlight designed to deliver focused illumination with a refined aesthetic. Milled from solid brass and finished with the brand's signature reeding, it pairs industrial precision with decorative subtlety.

Ideal for corridors, kitchen task areas, or highlighting artwork, it offers a clean silhouette and discreet presence. The supplied LED lamp emits a warm 2700K glow and can be dimmed using compatible dimmers, offering flexible control across applications. Whether installed as a singular highlight or used in multiples across a ceiling plane, it contributes to a layered, thoughtful lighting design.

Available in a choice of four high-quality finishes, the Spot Ceiling Light is as durable as it is versatile, making it a considered choice for both residential and commercial interiors. Its understated form integrates seamlessly into minimalist, industrial, or mid-century inspired schemes.
