PRODUCT DESCRIPTION

Designer: Will Earl

J. Adams & Co Apex LED Pendant

A sculptural composition of form and texture, the Apex LED Pendant Light by J. Adams & Co captures the transformative power of light. Kiln-formed reeded glass panels are suspended within a geometric brass frame, creating a layered structure that shifts visually with every angle. As light passes through the textured surfaces, it produces a constantly changing interplay of refraction and shadow.

Handmade in England, the Apex Pendant is offered with either a rigid drop rod or an adjustable chain suspension, making it suitable for a range of ceiling heights. An integrated LED light source delivers warm 2700K illumination with exceptional clarity and softness, while the IP44 rating on the rod-mounted version ensures suitability for bathrooms or damp environments. The soft glow and sculptural form make it ideal for use over dining tables, in luxurious bathrooms, or as a centrepiece in entranceways.

Refined yet expressive, the Apex Pendant brings a crafted elegance to both residential and hospitality spaces. Its kiln-formed glass carries the imprint of traditional technique, while the precision brass frame adds contemporary architectural structure, a balance of warmth and clarity, materiality and restraint.

Please note, when ordering this product please contact us to specify your preferred suspension type and length.

PRODUCT SPECIFICATION

Light Source:	9W, 2700K, 500 Lumens
IP Code:	Chain - 20 / Drop Rod - 44
Dimming:	Dimmable via mains phase dimming.
Dimensions:	Shade: 20cm Shade Height: 44cm Ceiling Rose Diameter: 12.5cm Drop Height: Rod (10–120cm) or Adjustable Chain (200cm)
