PRODUCT DESCRIPTION

Designer: Will Earl

J. Adams & Co Spot Pro Triple Ceiling Light

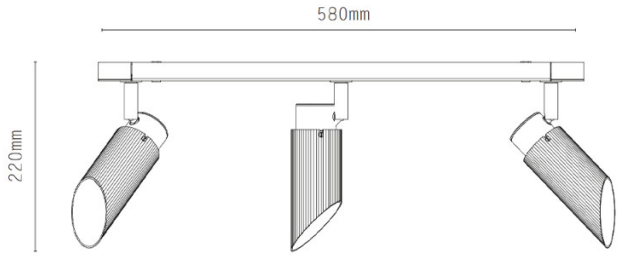

The Spot Pro Triple Ceiling Light by J. Adams & Co is a powerful multi-head spotlight system that combines form, flexibility, and function. Featuring three individually adjustable heads with full 350° rotation and 90° tilt, it offers precise lighting control for artwork, shelving, or key architectural features.

Supplied with high-CRI LED bulbs, it produces vivid 2700K illumination across a 36° beam, ideal for creating contrast and atmosphere. The recessed LED housing and angled shades are designed to minimise glare while enhancing its streamlined profile. This piece is well suited to open-plan kitchens, gallery spaces, or contemporary lounges, offering focused light that shifts the mood and highlights detail wherever needed.

Finished in solid reeded brass and available in four timeless finishes, the Spot Pro Triple adds both elegance and versatility to interiors. It works beautifully in layered lighting schemes, bringing clarity and purpose to accent lighting while complementing the overall architecture of the room.
