PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Domus LED Bollard

The Marset Domus LED Bollard series brings refined architectural character to exterior spaces, blending sculptural presence with functional outdoor lighting. Designed by Joan Gaspar, each fixture features a distinctive hollowed-out aluminium body with a stainless steel base, concealing the integrated LED source to emit a soft, downward glow. The effect is both atmospheric and precise, ideal for illuminating pathways, borders, courtyards, and entrances without visible glare.

Available in three heights, B26, B37, and B55, the Domus range offers flexibility in scale and composition. Whether used individually or combined in rhythmically staggered arrangements, the lights bring depth and contrast to outdoor schemes. Optional base plates allow the fixtures to be grouped in pairs or trios, enabling sculptural layouts tailored to the space and setting.

Each bollard is IP65 rated for outdoor use and dimmable via mains phase dimming systems. Finished in a choice of Black, White, or Rust Brown, the Domus collection offers a balance of clean geometry and ambient warmth, suited to both residential and hospitality applications.

Please note, double and triple base plates are available for clustering this product. Contact us for pricing and information.

PRODUCT SPECIFICATION

Light Source: 6W, 2700K, 505 Lumens

IP Code: 65

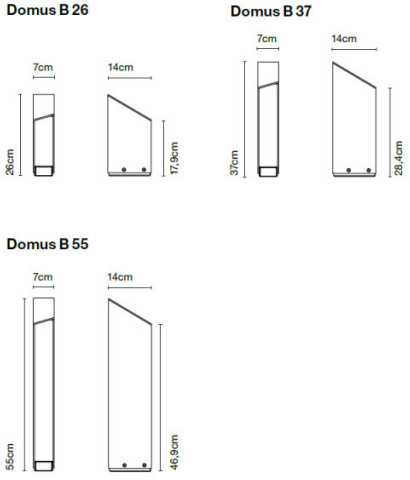

Dimming: Dimmable via mains phase dimming.

Dimensions:

B26:
Height: 26cm
Width: 7cm
Depth: 14cm

B37:
Height: 37cm
Width: 7cm
Depth: 14cm

B55:
Height: 55cm
Width: 7cm
Depth: 14cm
