PRODUCT DESCRIPTION

Designer: Raimond Puts

Moooi Raimond II R61 LED Pendant Light

BRAND NEW, BOXED IN ORIGINAL PACKAGING.
1 x Stainless Steel Available.

The Raimond II pendant light is the updated version of the Raimond pendant, which was released in 2009. The pendant is inspired by the geodesic dome, as the designer, Raimond Puts, was fascinated by its construction and how it could be incorporated into a lighting design. What results is two stainless steel spheres interconnected with integrated LED light sources sitting within the pattern.

This pendant light is a beautiful and mesmerising fixture, with the LED lights twinkling like stars in the night sky. Suitable for many interiors, you can use this pendant lamp as a main light in small spaces or in multiples in larger spaces for an atmospheric and warm glow.

Please note that these lights are not dimmable via standard mains phase dimming. However, a Moooi wireless dimming switch is available to purchase separately, which enables you to dim your Raimond II fitting without the need for additional wiring. The Wireless switch comes with a dimmable module that is fitted inside the ceiling canopy of your Moooi Raimond II. You can then use the switch to dim your Moooi Raimond II. Please [contact us](#) for further information and prices.
