PRODUCT DESCRIPTION

Designer: Will Earl

J. Adams & Co Nova Globe Pendant

Inspired by celestial shapes, the Nova Globe Pendant is a celebration of mouth-blown glass and the artistry that goes into creating unique pieces. Its sculptural form adds a decorative element to any interior, with the contrast between opaline glass and solid machined brass creating a timeless aesthetic, well-suited to both classic and contemporary decors. The metal frame is available in four elegant finishes: Antique Brass, Satin Brass, Bronze, and Satin Nickel.

The Nova Globe Pendant is ideally placed in dining rooms or lounge areas, adding a welcoming ambience to the room as well as a captivating decorative element. The opaline shade diffuses light into a comfortable, glare-free illumination that surrounds the pendant in an evenly distributed glow. Install in a row to run the length of a long table or kitchen island. In commercial spaces, large installations can be created in hotel lobbies or entrance halls by installing clusters of pendants at varying heights.

Please Note: The Nova Globe Pendant is supplied with a cable as standard, it is also available with a drop rod in a range of lengths. Contact us for more information.

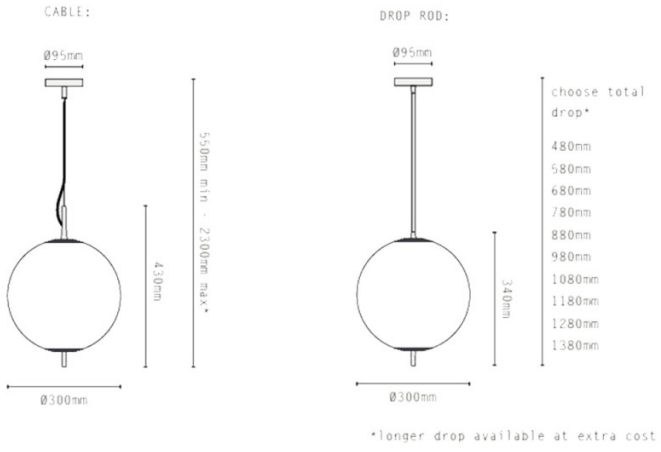

PRODUCT SPECIFICATION
