PRODUCT DESCRIPTION

Designer: Will Earl

J. Adams & Co Nova Tall Pendant

Handcrafted by expert artisans, the Nova Tall Pendant blends artistry and skill. Design Director Will Earl drew inspiration from celestial shapes to form the distinctive profile of each pendant. The smooth curves of the opaline glass contrast against the striking edges of the brass frame. This metal element anchors the design, while the tapered stem adds an Art Deco edge. Available in four elegant finishes: Antique Brass, Satin Brass, Bronze, and Satin Nickel, the Nova Tall Pendant adds a compelling element to any interior.

The sculptural appearance of the Nova Tall Pendant makes it captivating whether switched on or off. When illuminated, the opaline glass diffuses light, creating a glare-free, ethereal glow while adding a warm ambience to the surrounding space. To create an eye-catching feature, install in rows, running the length of a dining table or kitchen island. In commercial spaces, the Nova Tall Pendant is well-suited to hospitality settings, adding a welcoming ambience as well as a touch of luxury.

Please Note: The Nova Tall Pendant is supplied with a cable as standard, it is also available with a drop rod in a range of lengths. Contact us for more information.
