PRODUCT DESCRIPTION

Designer: Will Earl

J. Adams Flume 80 Pendant

To create the Flume 80 Pendant, Design Director Will Earl set out to produce something cohesive, functional, and beautiful. Inspired by Art Deco, the pendant highlights a beautiful interplay between machined brass and reeded glass. The contrasting materials result in a juxtaposition between delicate-looking glass and durable, machined metal. The reeded shade is available with a choice of clear or frosted glass, while the brass frame is available in an antique brass, satin brass, bronze, or satin nickel finish.

The Flume 80 Pendant features a wider shade than the **Flume 50** , casting a larger pool of light. When illuminated, light is diffused through the glass shade, with the vertical curves creating a subtle interplay of light and shadow. The Flume 80 is well suited to dining rooms, lounge areas, or kitchens, and works beautifully when installed in rows to illuminate a surface. Its luxurious aesthetic fits seamlessly into both residential and commercial environments. The Flume 80 is also available with an **IP44 Rating** , suitable for bathrooms or covered outdoor areas.

The Flume 80 is also available as a 3-drop or 6-drop Chandelier. Contact us for more information.

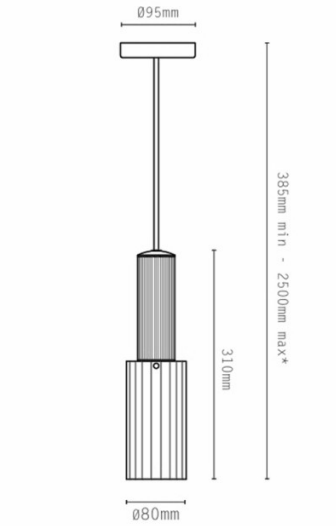

PRODUCT SPECIFICATION

Light Source: 1 x Max 3.6W GU10 MR11 LED (Included)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Ø8cm
Height: 31cm
Ceiling Rose: Ø9.5cm
Drop Height: 38.5cm - 250cm

*longer cable available at extra cost
