PRODUCT DESCRIPTION

Designer: Will Earl

J. Adams Flume 80 IP44 Pendant

Handcrafted in England, the Flume 80 Pendant IP44 combines new and traditional manufacturing processes. Its sculptural appearance balances elegance and functionality, highlighting thoughtful design and expert craftsmanship. The reeded brass frame is made from machined metal, which is available in an antique brass, satin brass, bronze, and satin nickel finish. The glass shade is available with a choice of either clear or frosted glass.

When illuminated, light is refracted through the reeded glass, casting a warm and diffused glow that fills the room with a welcoming ambiance. With an IP rating of 44, this version of the Flume 80 Pendant is splash-proof, designed to bring elegance to bathrooms, wet rooms, and spas. Its timeless aesthetic exudes luxury and sophistication, perfect for both residential and commercial spaces.

Please Note: The Flume 80 IP44's drop rod is available with a choice of length. Contact us for more information.

The Flume 80 IP44 is also available as a 3-drop or 6-drop Chandelier. Contact us for more information and pricing.
