PRODUCT DESCRIPTION

Designer: Will Earl

J. Adams & Co Flume 50 IP44 Pendant

The Flume 50 features a sophisticated design that combines new and traditional manufacturing processes. Created by Design Director Will Earl, the pendant's sculptural form conveys Art Deco influences. Handmade in England, the Flume 50 features an elegant, fluted brass frame paired with a precision-cut reeded glass. The brass frame is available in four finishes: Antique Brass, Satin Brass, Bronze, and Satin Nickel. The glass shade is available with either clear or frosted glass.

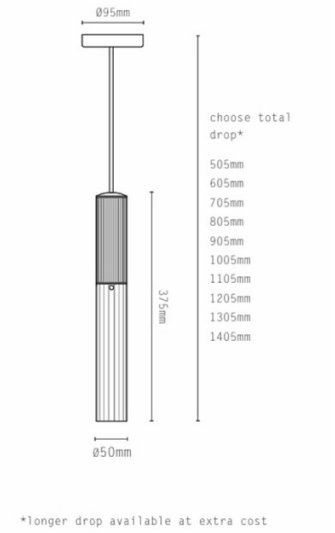

The sophisticated profile of the Flume 50 makes the pendant as captivating switched off as it is when switched on. When illuminated, the vertical curves of the reeded glass create an interplay of light and shadows, while filling the room with a warm and gentle ambient light. The clean lines and uncluttered profile create a timeless aesthetic, suitable for a wide range of decors. With an IP44 rating, the Flume 50 IP44 Pendant is splash-proof, designed to bring a warm elegance to bathrooms, spas, or wet rooms.

Please Note: The Flume 50 IP44's drop rod is available with a choice of length. Contact us for more information.

The Flume 50 is also available as a 3-drop or 6-drop Chandelier. Contact us for more information and pricing.
