PRODUCT DESCRIPTION

Designer: Phillipe Starck

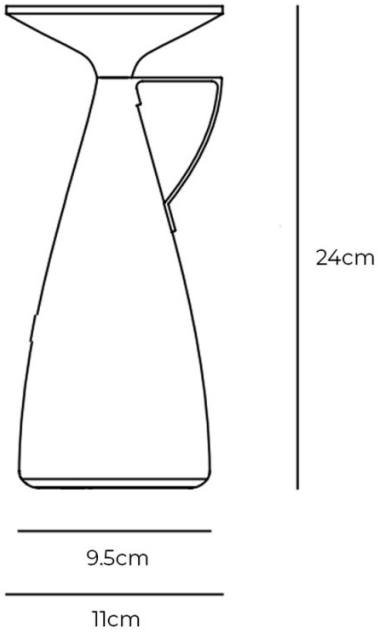

Kartell Camomille LED Portable Lamp

The Kartell Camomille LED Portable Lamp is a characterful design by Philippe Starck, inspired by the simple gesture of pouring tea. Its sculptural silhouette nods to the familiar form of a teapot, yet is reinterpreted in a sleek, contemporary material palette. This cordless table lamp combines soft curves and fine detailing with modern function, making it a portable and rechargeable solution ideal for versatile indoor or outdoor lighting scenarios. Available in both painted finishes, it serves equally well as a decorative feature or a practical source of light.

Equipped with an integrated LED and touch-sensitive dimming, the Camomille offers a battery life of up to 100 hours on the lowest setting. Whether illuminating a dinner table, softly lighting a lounge, or enhancing ambience in a hospitality setting, this compact lamp brings elegance, ease and emotional warmth to any environment. With its lightweight structure and USB-compatible charging, it's a truly flexible luminaire that can move effortlessly between rooms or even venues.
