PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Soft Pendant

The Soft Pendant conveys a more neutral side of Tom Dixon, a departure from the reflective, metallic finishes typical to the brand. Each pendant is created using welded steel frames that are covered in sprayed thermoplastic polyurethane – a durable and flexible material that bridges the gap between plastic and rubber. TPU was originally created by the US military to coat metal surfaces to prevent corrosion, providing the ultra-matte textile with protective properties.

When illuminated, SOFT's metal framework is revealed, forming a geometric pattern composed of multiple wire circles. The TPU shade diffuses light into a paper-like glow, reminiscent of traditional lanterns. Available in two sizes, 45cm and 60cm, the Soft Pendants can be hung together to form large, dynamic clusters. Alternatively, install a single pendant above a dining table or sofa to add an eye-catching element that brings a sense of warmth and softness to the room.

PRODUCT SPECIFICATION

Light Source: 1 x Max 15W LED E27 (Excluded)

IP Code: 20

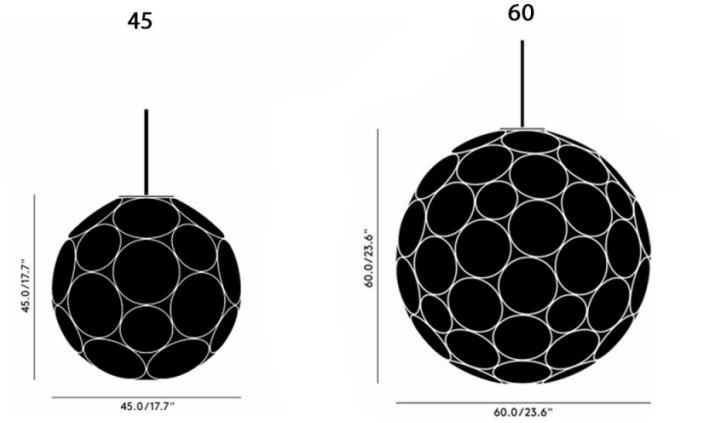

Dimming: Dimmable via mains phase dimming.

Dimensions:

45:
Ø45cm

60:
Ø60cm

Cable Length: 350cm
