PRODUCT DESCRIPTION

Designer: SkLO

SkLO Twin 2.0 Wall / Ceiling Light

The design for the Twin 2.0 Wall / Ceiling Light began with the idea of the two-toned glass diffuser. While developing the design, SkLO's in-house team of designers introduced the metal element, adding a sense of luxury and durability. The result is a timeless, ornamental luminaire that celebrates the ancient history of Czech glass blowing. To create the glass diffuser, two spheres of mouth-blown glass are slightly flattened and merged while still hot. The glass is held to its metal base by the brass band that sits between the two spheres.

Sitting flush to the surface it sits on, the Twin 2.0 Wall/ Ceiling Light is a space-saving lighting solution, perfect for a wide range of interiors. When illuminated, both halves of the Twin 2.0 are individually lit, creating an even spread of light. Light is diffused through the coloured glass, bathing the surrounding surface in a warm glow. With a wide range of glass colourways available, users can mix and match colours to create a two-toned diffuser that perfectly suits their style. The metal base comes in a choice of four luxurious finishes, which complement the diffuser while adding a touch of elegance. The Twin 2.0 is suitable for installation on either a wall or a ceiling, and can be installed throughout the home, wherever a cosy ambience is required.

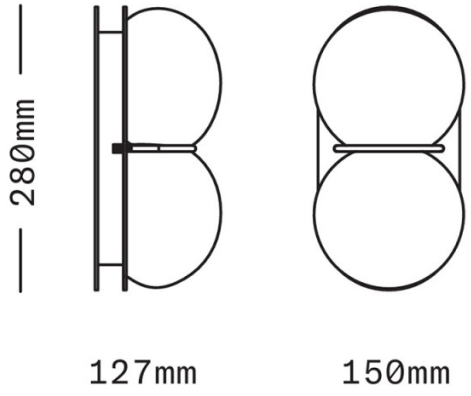

PRODUCT SPECIFICATION

Light Source: 2 x Max 7W G9 LED (Included)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Height: 28cm
Width: 15cm
Depth: 12.7cm
