SkLO Hold Wall Light

The Hold Wall Light is an expressive lamp that appears to droop from a metallic hook, giving the illusion of molten glass. Using traditional Czech glassblowing techniques, the Hold showcases the clarity and vibrant colours that the ancient method is known for. Skilled glassblowers intentionally make every piece slightly different, ensuring no two lights are the same. When displayed in multiples, these variations become subtly clear, adding an organic feel to the composition while highlighting the individuality of each piece.

The Hold Wall Light is available in two sizes, making it adaptable for a range of interiors. A light socket hangs from the hook on a fabric-wrapped electrical cord, loosely suspended within the glass shade. The industrial appearance of the exposed cord creates a striking contrast against the organic-looking glass vessel.

Customisation is at the heart of the Hold Wall Light. The glass shade is available in a range of colourways, while the hook comes in a choice of four sleek finishes. This element of personalisation allows you to create a wall light that is perfectly suited to its surrounding environment. When lit, the shade diffuses light into a warm glow that adds a tranquil atmosphere to the room. This cosy ambience is perfect for a bedroom, dining room, or reading nook.

PRODUCT SPECIFICATION

Light Source: **12**: 1 x Max 7W G9 LED (Included)
18: 1 x Max 25W E14 LED (Included)

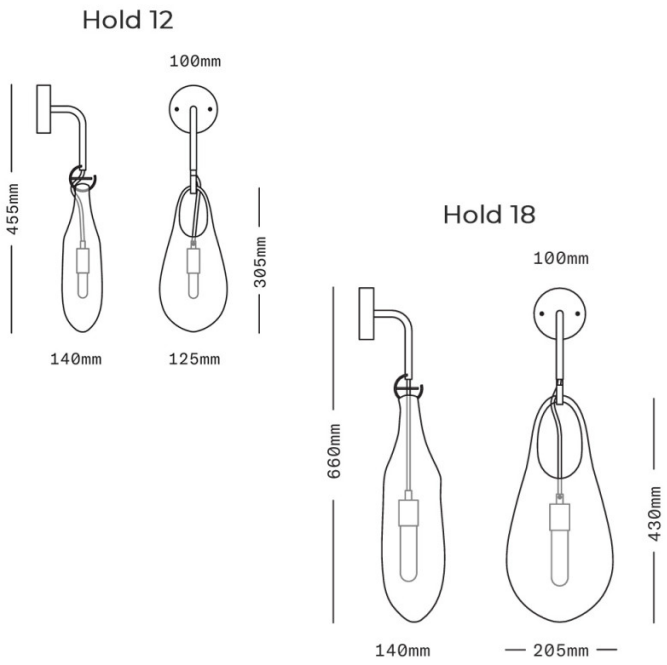

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions:

12
Total Height: 45.5cm
Shade Height: 30.5cm
Width: 12.5cm
Depth: 14cm

18
Total Height: 66cm
Shade Height: 43cm
Width: 20.5cm
Depth: 14cm
