PRODUCT DESCRIPTION

Designer: BEGA

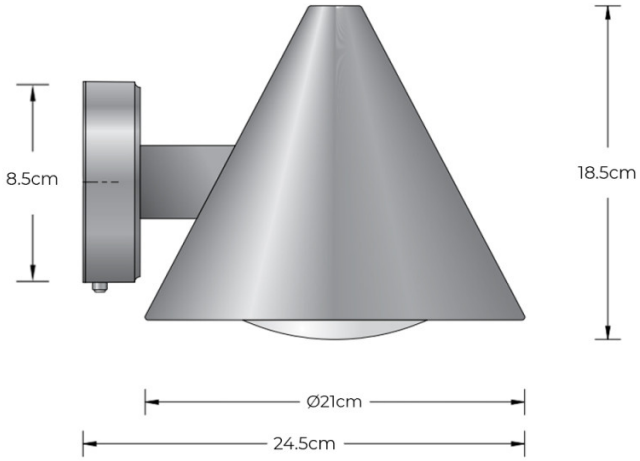

BEGA 31472 Outdoor Wall Light

The BEGA 31472 Outdoor Wall Light is a shielded luminaire crafted from copper with a conical shade and opal glass diffuser. Combining durability with sophisticated design, the BEGA 31472 Wall Light generates a soft functional downlight that can be used individually, in pairs or in longer rows. This lighting solution is a stylish choice for illuminating house exteriors, gardens, garages and wherever else atmospheric accent lighting is required.

The use of copper for the BEGA 31472 Outdoor Wall Light adds an elegant touch to the design, whilst the material forms its own protective coating over time and gradually develops its distinctive character through the resulting patina. This means the luminaire will develop its own unique finish as the years go on.
