PRODUCT DESCRIPTION

Designer: BEGA

BEGA 24919 LED Ceiling Light

The BEGA 24919 LED Ceiling Light is a compact downlight that utilises a partially frosted crystal glass diffuser that defines the overall aesthetic of the design and supplements the illumination with an additional vertical light component. It also directs part of the light laterally onto the ceiling above, providing horizontal illuminance and a pleasant visual comfort.

This ceiling light can be displayed individually or in multiples, whilst the minimalistic form and exceptional craftsmanship make the BEGA 24919 a reliable lighting solution for use in a variety of residential and commercial environments. The IP65 rating also means that this ceiling light can be used in exterior settings and bathrooms.
