PRODUCT DESCRIPTION

Designer: Poul Henningsen

Louis Poulsen PH 3/2 Dusty Terracotta Limited Edition Table Lamp

Available to pre-order for official release in October 2025.

This Limited Edition of the Louis Poulsen PH 3/2 Table Lamp celebrates Poul Henningsen's pioneering three-shade system with a new four-layer, mouth-blown glass composition in a soft dusty terracotta tone. The layered shades shield the light source and control reflection, creating the classic PH effect, glare-free, evenly diffused, and warm. The inner surface is sandblasted white to enhance comfort and light quality, while the outer glass carries a gentle colour that adds depth even when unlit. An aged brass structure, brushed with fine hairlines and sealed with lacquer, provides a refined counterpoint to the glass and will maintain its appearance over time.

As a compact table lamp, the PH 3/2 Dusty Terracotta Limited Edition is ideal for desks, sideboards and bedside tables where a calm ambience and functional, downward-directed illumination are desired. The through-switch on the cable keeps operation simple, and the standard E14 fitting supports straightforward bulb selection to suit the task, from warm white ambience to brighter reading light. At IP20, it is designed for interior use across domestic and hospitality settings, and as part of the wider PH family, it can be paired with PH pendants or wall lights to create a coherent lighting scheme. Each glass shade is handcrafted, so subtle variations such as small air bubbles attest to the craft process and make every piece unique.

PRODUCT SPECIFICATION

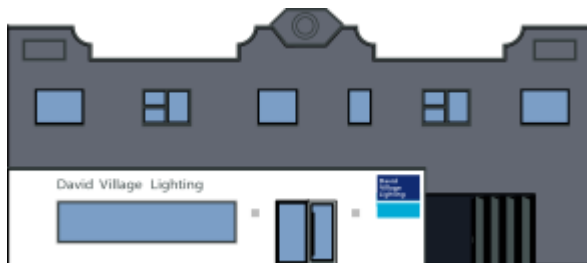

Light Source: 1 x Max 40W E14 (Excluded)

IP Code: 20

Dimming: In line on/off switch included on cable.

Dimensions: Shade: Ø28.5cm
Height: 469cm

Cable Length: 280cm
