PRODUCT DESCRIPTION

Designer: BEGA

BEGA 34161 Wall Light

The BEGA 34161 Wall Light is a versatile luminaire that is ideal for residential and commercial spaces, boasting a simple rectangular silhouette. An opal glass diffuser ensures an even and glare-free illumination, and is held in place by solid cast fittings made of high-quality aluminium. The result is a minimalistic wall light that becomes a building block of light, serving to accentuate architecture by day and night.

This modern luminaire can also be used in bathrooms and exterior settings, thanks to the IP44 protection class that ensures it can withstand damp environments. The BEGA 34161 Wall Light is a durable and functional lighting solution that offers reliability and timeless design, whether installed independently or in multiples.
