PRODUCT DESCRIPTION

Designer: BEGA

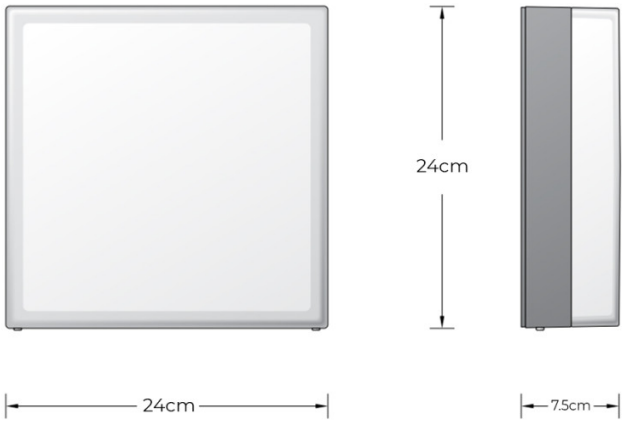

BEGA 33602 LED Wall Light

The BEGA 33602 LED Wall Light is a compact and functional luminaire consisting of thick-walled crystal glass within a cast aluminium housing, and a simple square silhouette. The result is not only an elegant design, but also a glare-free illumination that can be used in a range of interiors and exteriors, thanks to the IP65 class rating.

Whether arranged individually or in groups, the BEGA 33602 can be used for numerous environments around the home and in other public areas. The aluminium housing is also available in graphite or silver, depending on your style. The BEGA 33602 LED Wall Light is also available with weatherproof numbers, symbols or lettering on request. This allows house numbers and notices to be read easily, even from great distances – by day and by night.
