PRODUCT DESCRIPTION

Designer: BEGA

BEGA 33514 LED Wall Light

BEGA 33514 LED Wall Light is a shielded downlighting solution which, on account of its compact dimensions and IP64 rating, is particularly suitable for installation on pillars and the front surfaces of external walls. The cast aluminium structure is durable and houses a safety glass diffuser, protecting the LED light source from the elements and resulting in a glare-free illumination.

The BEGA 33514 is available in two finishes: graphite or silver, and can be displayed individually or in multiples in one environment. This stripped back wall light is an excellent way to illuminate driveways, corridors and hallways. Perfect for residential and commercial spaces alike.
