PRODUCT DESCRIPTION

Designer: Cecilie Manz

Fritz Hansen Solae LED Portable Lamp

The Fritz Hansen Solae LED Portable Lamp is a refined portable lamp by Cecilie Manz for Fritz Hansen, designed to be lifted, placed, and lived with. A circular light disc rests on an oval base that sits naturally in the hand, so the lamp can be turned to gently shape the scene, from a bright centrepiece on a dining table to a quiet pool of light in a reading corner. The integrated 2700K LED has a high CRI for faithful colour, while the glare shield keeps the output soft and comfortable for close use.

With three-step dimming on the lamp, the Fritz Hansen Solae LED Portable Lamp shifts from functional brightness to warm evening ambience with a simple tap. The IP44 rating means it can be taken outdoors temporarily, then stored indoors, ideal for terraces and hospitality tables. Charging is via the included 2 m USB-C cable, and Solae is compatible with third-party multi-charging stations for professional settings. Replaceable LED and battery components support long-term serviceability, and the robust aluminium body is offered in White, Warm Grey, or Light Green for a quietly contemporary finish.

PRODUCT SPECIFICATION

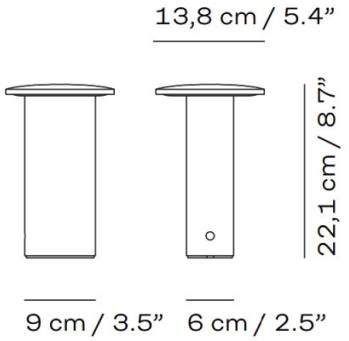

Light Source: 1.9W, 2700K, 111 Lumens

IP Code: 44

Dimming: Integrated dimmer on the product.

Dimensions: Shade: 13.8cm
Height: 22.1cm
Base Width: 6cm
Base Depth: 9cm

Charging Cable Length: 200cm
