PRODUCT DESCRIPTION

Designer: BEGA

BEGA 22750 LED Ceiling / Wall Light

BEGA 22750 LED Ceiling/Wall Light is a durable luminaire, consisting of a robust frame made of cast aluminium that protects the edges and corners of the inner crystal glass diffuser. This frame is available in two sleek finishes: either graphite or silver. And the glass detailing ensures an evenly emitted, functional illumination that isn't harsh on the eye.

The BEGA 22750 can be used for both indoor and outdoor settings as it's rated IP64. This makes it an eye-catching addition to exterior walls, patios, driveways and residential entrances. It can be installed independently for smaller areas, in pairs on either side of a door or entranceway, and even in larger quantities to line long walls and corridors.
