PRODUCT DESCRIPTION

Designer: BEGA

BEGA 24344 LED Wall Light

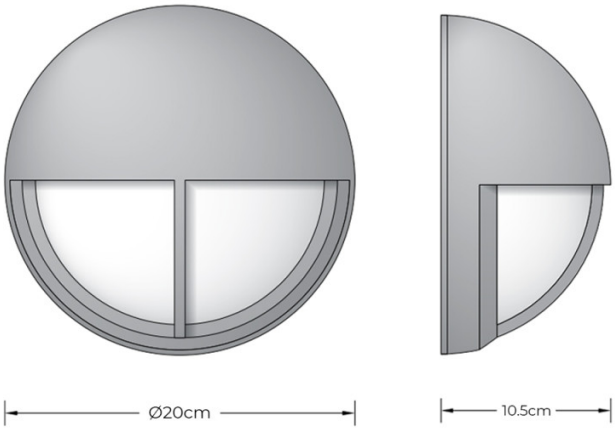

A hemispherical luminaire with an eye-catching form, the BEGA 24344 LED Wall Light is a great solution for interior and exterior settings that require functional illumination. Fitted with integrated LED technology, the BEGA 24344 offers evenly diffused and glare-free lighting that is subtly projected towards the surface below. This design has been in production for more than 40 years, with BEGA continually improving its technical features. The brand has taken a restrained approach to updating the design in order to preserve its status as a classic.

The BEGA 24344 LED Wall Light adapts beautifully to residential and commercial environments alike, but it is especially useful for exterior walls, paths and walkways. It is available in three elegant finishes: graphite, silver or white, allowing it to adapt to a series of modern spaces. This functional wall light received its first international design award back in 1980 and is a popular product from BEGA.

The BEGA 24344 LED Wall Light can also be supplied with a PIR motion and light sensor. Please Contact Us for more information and pricing.
