PRODUCT DESCRIPTION

Designer: Dimitri Bähler

Muuto Looped Wall / Ceiling Lamp

Designed by Switzerland-based designer, Dimitri Bähler, the Looped Wall/Ceiling Lamp offers a timeless and elegant design. The shade is crafted from three-layered, mouth-blown glass, creating a subtle 3D effect. When illuminated, the Looped Wall/Ceiling Lamp is evenly lit in a gentle, diffused glow. The casing is evenly illuminated while casting a halo of light around the lamp, bringing a quiet yet efficient presence to the space. This soft lighting is well-suited for spaces that require a comfortable ambience, such as hallways, bedrooms, or living rooms.

An inline dimmer allows users to adjust the brightness, creating lighting that suits any setting. The Looped can be installed on a wall or ceiling, and if required, an [IP44 version](#) is available for use in bathrooms or wet rooms. Create elegance in repetition by displaying in multiples, running the length of a hallway, or framing a doorway.
