PRODUCT DESCRIPTION

Designer: BEGA

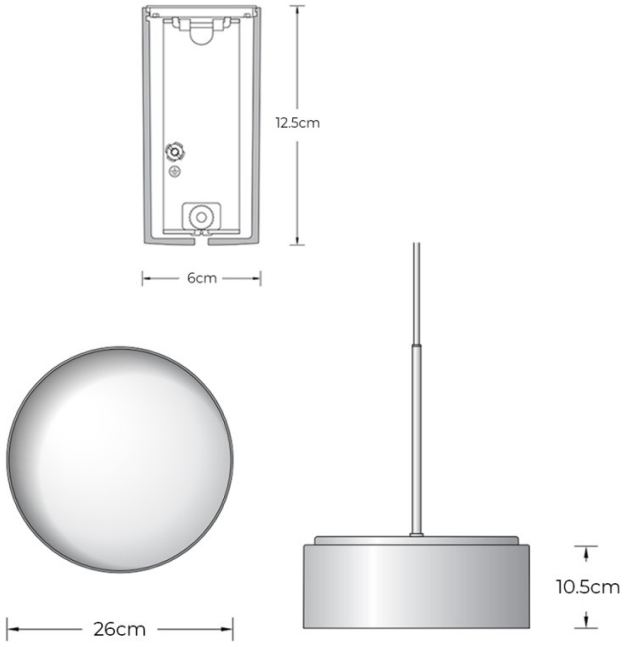

BEGA 50999 LED Pendant

A modern downlighting solution, the BEGA 50999 Pendant creates a uniformly soft and pleasant lighting atmosphere, fitted with integrated LED technology to reduce glare. Crafted from aluminium with a sleek outer body, the BEGA 50999 allows you to choose between four inner finishes, all of which impact illumination. Choose between white, aluminium, brass or copper depending on your interior style and desired warmth. These metallic inner colours also reveal their true beauty when illuminated, with the lighting output highlighting the details in the metal.

The BEGA 50999 LED Pendant can be utilised in a range of settings, for both residential and commercial interiors, and can be displayed individually or in multiples for larger spaces. This luminaire is a perfect addition to reception areas, dining rooms, entryways and kitchens, as well as hotels, restaurants and bars.
