PRODUCT DESCRIPTION

Designer: BEGA

BEGA 55453 Wall Light

A sophisticated design, featuring a cast aluminium structure and a hand-blown opal glass diffuser, the BEGA 55453 Wall Light provides a pleasantly soft illumination. The three-ply opal glass shade has a high transparency level, ensuring an evenly dispersed lighting output, and it is also resistant to ageing and easy to clean. BEGA 55453 offers a glare-free glow for a high degree of visual comfort.

Available in two industrial finishes, graphite or bronze, the BEGA 55453 Wall Light adds an elegant aesthetic to any space, and the IP44 protection rating means it can be used in exterior settings. For this reason, the luminaire is a stylish choice for building entrances, walkways, and patios. It can also be displayed individually, in pairs, either side of a door or in clusters and rows for longer walls.
