PRODUCT DESCRIPTION

Designer: BEGA

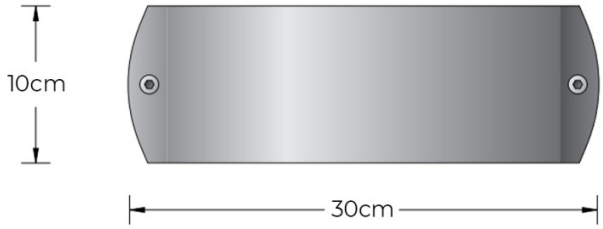

BEGA 31453 Wall Light

A front shielded lighting solution for interior or exterior settings, the BEGA 31453 Wall Light is crafted from copper with a hand-blown three-ply opal glass diffuser. The hidden light source is projected through the top and bottom of the lamp, and the wall acts as a reflection surface. The result is an evenly dispersed and softly diffused glow, which adds character to any setting and ensures high levels of visual comfort.

Whether displayed independently or arranged in groups or rows, the BEGA 31453 Wall Light can adapt to a variety of classic and contemporary environments. The IP54 protection rating ensures the lamp is protected from the elements and can be used in exterior settings as well as interior. A classy way to brighten up gardens, patios, building entrances and long corridors.
