PRODUCT DESCRIPTION

Designer: Niclas Hoflin

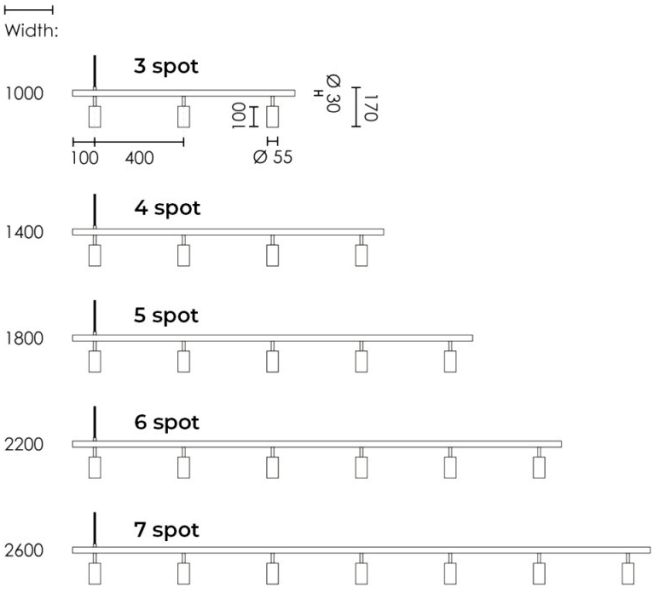

RUBN Long John with Uplight LED Pendant

The Long John with Uplight reimagines a RUBN favourite by pairing focused GU10 downlighting with a soft, integrated LED glow within the rod. This two-layer distribution delivers excellent task light over dining tables, kitchen islands, and work benches, while the uplight lifts the ceiling to create a calm, balanced ambience. A clean wire suspension gives the pendant a minimal presence, allowing the linear form and refined finishes to take centre stage. Handmade in Sweden, the piece reflects RUBN's commitment to durable materials and meticulous detailing.

Available in five lengths from three to seven spots, the Long John with Uplight scales confidently across residential and commercial interiors. Finishes include brushed brass, steel, and powder-coated options such as black and white, with combinations like black with brass spots or white with steel spots for subtle contrast. The GU10 lamps are supplied in the box for quick installation, and smooth dimming lets you tailor the mood through the day. Place over a table, run two or more in sequence across long counters, or specify larger sizes for hospitality and workplace applications.
