PRODUCT DESCRIPTION

Designer: Niclas Hoflin

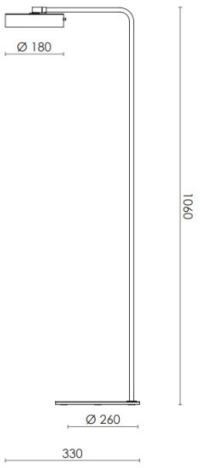

RUBN James LED Floor Lamp

The RUBN James LED Floor Lamp, designed by Niclas Hoflin for RUBN, combines sleek Swedish craftsmanship with practical functionality. Its minimal structure supports a single LED panel that rotates nearly 360 degrees, allowing light to be angled exactly where needed. This makes it a perfect companion for reading nooks, desks, or lounge areas, offering targeted illumination without dominating the space.

The James lamp features an integrated dimmer, giving full control over the intensity of its warm 3000K glow. This versatility allows it to transition easily from ambient background lighting to focused task use. Available in a variety of finishes, including brass, steel, black with brass accents, white with brass, ruby red, and yellow, the James LED Floor Lamp adapts to a wide range of residential and commercial interiors. Each piece is handmade in Vittsjö, Sweden, reflecting RUBN's commitment to timeless quality and enduring design.
