PRODUCT DESCRIPTION

Designer: Niclas Hoflin

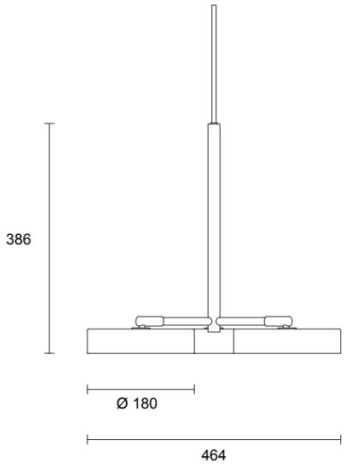

RUBN James LED Chandelier

The RUBN James LED Chandelier by Niclas Hoflin offers a modern reinterpretation of the classic chandelier, balancing functionality with understated elegance. Featuring three adjustable light sources, each arm can be directed to suit the needs of the space, whether creating focused pools of illumination or a wider, atmospheric glow. Its warm 3000K integrated LEDs bring a soft ambience while maintaining practical brightness.

With trailing-edge dimming, the James Chandelier adapts seamlessly between functional and mood lighting. Handmade in Sweden, it reflects RUBN's meticulous approach to design and craftsmanship. Available in black/brass, brass, steel, and white/brass finishes, it suits both residential and hospitality environments. The chandelier is complemented by RUBN's ceiling cups, available separately, which ensure a refined installation and neat finish.
