PRODUCT DESCRIPTION

Designer: BEGA

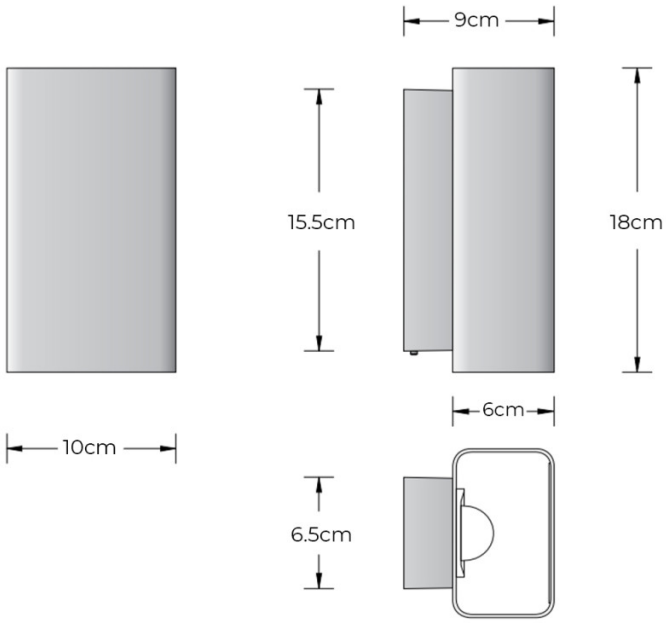

BEGA 50213 LED Wall Light

Supplying a generous illumination in two directions, the BEGA 50213 LED Wall Light utilises an aluminium structure, with a black exterior finish and the choice between three different interiors. Choose between brass, copper or aluminium, all of which will impact the warmth of the lighting output in different ways. When illuminated, the metallic inside colours reveal their true beauty and light up the installation surface above and below the luminaires.

The BEGA 50213 Wall Lights boast both economical and reliable LED technology as well as a fascinating interplay of the different metal finishes. Each luminaire is a functional addition to entryways, kitchens and long corridors, and can be displayed individually, in pairs or in longer rows.
