PRODUCT DESCRIPTION

Designer: BEGA

BEGA 51012 LED Ceiling Light

The BEGA 51012 Ceiling Light is a shielded lighting solution fitted with LED technology to provide a uniformly soft and pleasant lighting atmosphere. Crafted from aluminium, the exterior of the design features a sleek black finish whilst the interior can be supplied in brass, copper, aluminium or white. These metallic inside colours contrast beautifully with the elegant exterior finish, especially when illuminated.

This circular ceiling light can be installed individually in smaller environments or in clusters or rows for larger spaces. For this reason, it's an excellent addition to both residential and commercial interiors. Display the BEGA 51012 LED Ceiling Light in hallways, reception areas, offices and kitchens, for functional and glare-free downlighting.
