PRODUCT DESCRIPTION

Designer: Antoni Arola

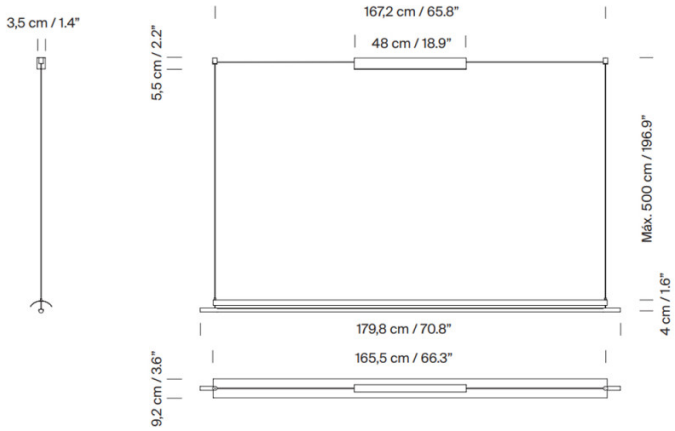

Santa & Cole Lamina 165 LED Pendant Light

The Santa & Cole Lamina 165 LED Pendant is the collection's wide, elegant statement piece, using a slender metal sheet to reflect a soft, comfortable light into the room. A discreet linear LED sits beneath a white, grey glossy shade, while a matte black structure frames the gentle curve that gives Lamina its identity. The result is a calm, glare-controlled illumination that favours reflected light over direct exposure, ideal for dining tables, long kitchen islands, reception counters and hospitality spaces that seek a warm ambience with visual ease.

Despite its generous width, Lamina 165 remains visually light thanks to its restrained palette and slim profile. Integrated LED ensures efficiency and longevity, while dimming compatibility enables precise scene setting across residential and commercial projects. Install as a solo piece to anchor a focal point, align two over a long table, or create a measured procession in larger interiors. The 5m suspension allows flexible hanging heights, and the polycarbonate diffuser contributes to the soft, even distribution that defines the Lamina family.

PRODUCT SPECIFICATION

Light Source:	54W, 2700K, 1979 Lumens
IP Code:	20
Dimming:	Dimmable via 1-10v dimming systems. Please consult your electrician, additional wiring may be required on site.
