PRODUCT DESCRIPTION

Designer: BEGA

BEGA 50993 LED Pendant

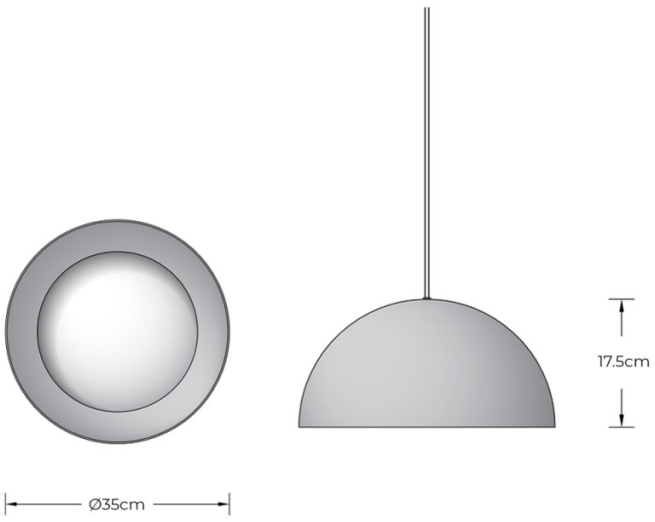

The BEGA 50993 Pendant features a hemispherical aluminium shade in a sleek black colour, with the choice between four interior finishes, all of which offer a slightly different colour temperature due to their hues. The inner LED light source projects an even, glare-free emission of light onto the area below, creating a soft and pleasant atmosphere. Each BEGA 50993 can be installed independently or in multiples for more dramatic clusters and installations.

This modern downlighting solution is an elegant addition to entryways, kitchens, dining areas and reception spaces. Due to the functionality of the light source, as well as the simple aesthetic and varying finishes, the BEGA 50993 LED Pendant can be utilised in residential and commercial interiors.

The BEGA 50993 LED Pendant can also be supplied with DALI dimming. Please contact us for more information and pricing.
