PRODUCT DESCRIPTION

Designer: BEGA

BEGA 66055 LED Outdoor Ceiling Light

BEGA 66055 Ceiling Light is a functional and versatile downlighting solution, crafted from cast aluminium with a crystal glass diffuser. The partially frosted crystal glass defines the look of this efficient ceiling light and filters the downward-directed LED light source with an additional vertical light component. This feature results in a glare-free and evenly emitted illumination.

The BEGA 66055 LED Outdoor Ceiling Light allows the choice between two sleek finishes: graphite or white, and boasts an IP65 protection class that ensures the luminaire can be used in exterior settings. BEGA 66055 is a reliable lighting tool for use in many different architectural areas, which can be relied upon for many years, in both residential and commercial environments.
